### REHEATING INSTRUCTIONS: BULK (SEE PACK OF PACK FOR 400g REHEATING INSTRUCTIONS)

Use a microwave, oven, or stove top to rapidly to at least 60°C. Don't heat food using Bain Marie's, pie warmers or other equipment designed only to hold food hot - this is likely to take too long or not heat the food enough to keep it safe.

Heat food to 60°C or hotter before transferring to hot-holding equipment. Ensure product is heated evenly throughout, not just at the edge.

Avoid reheating potentially hazardous food more than once, so it doesn't go through multiple warming periods

Check temperature with a probe thermometer.

For more information on cooling and reheating food safely, visit [foodstandards.gov.au](http://foodstandards.gov.au).
